Subject RE: R Lavin Cleanup Status

We have received final approval from the Kenosha Water Utility for the water and as we discussed late last week will resume removal of water from the South Tank beginning tomorrow. If all goes well, we should have that tank emptied early next week so that it can be cleaned and decontaminated. Once we have a better handle on the removal rates, I will update you regarding the schedule for emptying and cleaning according to the AOC.

If you have any questions, please contact me.
